

# Connections to Other Pipe Material Systems

**Several methods may accomplish connections to other pipe material systems:**

---

- Hobas pipes, from 18 to 48 inches, may be joined directly with ductile iron pipes using our FRP couplings or ductile iron gasketed joints
- In some diameters and applications, third-party mechanical couplings may be suitable
- Hobas Pipe can custom fabricate mating bells or spigots for other gasket-sealed systems with the proper dimensions
- Custom-fabricated mechanical couplings of different ODs may be used
- The most expensive method, flanges built to ANSI or other drilling specs, is typically acceptable

**Contact us regarding the suitability of additional options which maybe available.**
