

ENERGY & ENVIRONMENT POLICY

Hobas is a leading manufacturer of Fiberglass Reinforced Polymer Mortar (FRPM) Pipe Systems. We commit ourselves to actively protecting our environment in everything we do. Within the scope of our energy and environment policy, we particularly take care to:

- Comply with applicable environmental and energy-related legislation, regulations, and other requirements.
- Actively prevent pollution, reduce waste, and minimize the consumption of energy resources.
- Control and monitor our products and operation processes in an environmentally responsible and energy-efficient manner.
- Define environmental and energy guidelines, objectives, and measure for continual improvement. The Management provides all necessary resources and information in order to achieve the defined objectives.
- Favor environmentally sound and energy-efficient products and encourage our business partners to protect the environment.
- Aim for continuous improvement of the environments; and energy balance through the design of facilities, systems and processes.
- Train and motivate employees to carry out tasks in an environmentally and energy-efficient manner.
- Communicate and document activities and results of the Environmental and Energy Management Systems at all levels of the organization.
